Re ~~Sanction of 1950~~ Renewal of loan amount sanctioned to the underground drainage scheme, Mandya Town Municipality

With reference to your letter No L 1632 dated 21st May 1951 on the above subject, I write to state that the Government grant of Rs.1,54,859/- which is two thirds of the estimated cost work to be executed during the first stage is reported to have been drawn and credited to the Public works Department Funds on 31-3-1951 that the first stage of the work has been in progress since February 1951 and that the outlay incurred during 1950-51 was Rs 4,258/-

The President, Town Municipal Council, Mandya, has claimed Rs 77,429/- being the full amount of loan for the I stage of the work, as the amount is required for the year 1951-52 for the completion of the I stage of the work

The Bill for the above amount claimed by the President will have to be sent to the Accountant General for preaudit and return only after sanction of Government to the renewal of the loan sanctioned in G O dated 5-10-1948, is obtained as per his instructions referred to in my previous letter

I, therefore request you kindly to obtain early sanction of Government to the renewal of the loan in question

Yours faithfully,

of 9" Dia S W pipes at the Factory

has been laid as against the total length of 606⁹ feet of 9",
12" and 15" pipe line

With the remaining quantity of 9" S W pipes, it is proposed
to complete the pipe line from manhole 5 to manhole 13, a total
length of 1470 feet

2 Street Sewers

Fresh Surveys for final location of the manholes^o and street
sewers in the Old Town are completed

The construction of manholes in the Eswar^oswamy and the -
Janardhanaswamy temple streets is progressing rapidly

3 Septic Tank

The Notifications regarding acquisition of 0-23 guntas of land
in the Mandya Tank atchkat for this ~~structure~~ structure were pub-
lished in the Mysore Gazette dated 28-6-51 The handing over
of the possession of the land by the Special Land Acquisition
Officer, V C Area, Mandya, to this office is awaited for taking
up the construction of the Septic tank

GENERAL

The commencement of the works early in March 1951 coincided
with a period of acute shortage of cement and the progress was

was considerably hampered on this account

The total requirements of cement for the year 51-52 in accordance with the approved programme of works is 227 tons and a permit for purchase of this quantity has been granted by the Controller of Civil Supplies in June 1951. The contractors have arranged for periodical supplies of cement from Bhadravathi.

Since 9" Dia S W pipes for the Main Sewer line are not available at present, the contractors are making arrangements to push on the street sewers on 7" Dia expeditiously.

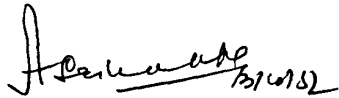

Outlay and progress

The total cost of the 1st stage Underground Drainage works in accordance with the accepted tender rates is Rs 2,95,945/-

The outlay to the end of August 1951 is R 13,449/2. Including incomplete works, the total progress to-date is R 21,149/-
